Benjamin Escobar

Morgan Winnebaker

Background Context:

- Swims regularly everyday for 1-2 hours
- She records 150 pounds with a goal of 120 pounds to swim faster
- Enjoys starting the day every morning with cup of coffee

Demographics:

- 29 year old Woman
- Working Student
- Lives in a 1 bedroom apartment in Florida

Identifiers:

- Uses phone daily and laptop for planning
- Tracks weight-loss progress
- Prefers clear charts and goals
- Wants clear history or patterns of individual readings

Miles Rodrigo

Background Context:

- Goes to the local gym early morning before going on his way to work
- Gets easily frustrated if there are inconsistent exercise names, scattered notes, and not a huge fan of math
- Wants to compare the same exercise with previous session and see the highest recorded weight he can do

Demographics:

- 34 year old Man
- Technician and Parent
- Works full-time and raises 3 kids with his wife who works part-time

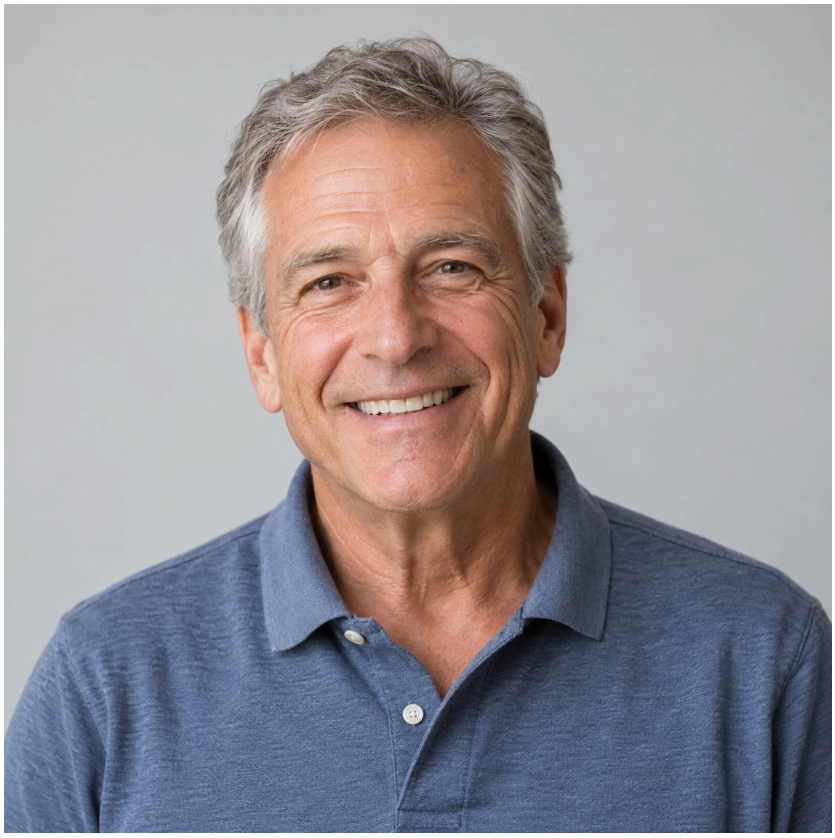

Identifiers:

- Trains consistently 3 times a week
- Logs workouts on his phone
- Wants quick strength comparisons

Stretch Feature: Saved Routines

Miles wants to save his usual exercises, sets, repetitions, and weights as a routine so he can reuse them without entering everything again. He can load a saved routine and adjust the actual results before saving his workout.

Albert Degianno

Background Context:

- Enjoys being active to keep his strength and fight off old age
- Mainly workouts consist of cardio and light weights
- Has trouble remembering if he worked out that day or not because unable to recall what workouts exactly were done
- Not that reliant on technology but always carrying his phone

Demographics:

- 63 year old Male
- Currently lives in a senior assisted facility
- Very sociable and enjoys being around company
- Retired early at the age of 60

Identifiers:

- Not tech-savy and prefers simple,easy to read log workouts
- Need simple forms and navigation
- High motivation to maintain being active and may have high usage
